

Electroplating Training Questionnaire

Advint	Customer
Which type of training do you prefer: on-site or remote?	
How many of your staff require training?	
Is the training for operating staff, laboratory technicians, or supervisors and engineers?	
What are their educational background and plating experience?	
List the plating and conversion coating processes you require training.	
Does your company have to follow standards and specifications like ASTM? Provide a list.	
Do the products need to meet regulations like REACH, EPA, and RoHS?	
What is the potential start date for training?	
Once the course is completed, what are the management expectations for participants?	
Do you want to add other information?	

Notes:

- ✓ Advint Incorporated is a private non-accredited institute. We follow ISO/IEC/17065
- ✓ When you provide a comprehensive response to the questions above, our customers are more satisfied with the training.
- ✓ Once we receive the filled form, Advint will send a quote.

Advint Incorporated is incorporated under the federal laws of Canada
